Allow Us To Introduce You

Teller: Hailey Teague

- Hailey will be a teller at Wilton Bank, but you will see her smiling face in the DeWitt Office for the next few months as she undergoes training.
- Hailey received her Bachelor's degree in psychology from St. Ambrose University.
- She is a fan of all outdoor activities- hiking, camping, kayaking, and hunting (she got her first deer last year!)
- If she wasn't working at the bank, her dream job would be a Netflix critic!

Celebrating 10 Years of Service

Theresa Paulsen Retires

Those of us at DeWitt Bank & Trust Co. extend our best wishes to Theresa Paulsen who retired from her drive-up teller position on August 3rd. Theresa has been a valuable member of the staff for 10 years. She will be greatly missed by customers and coworkers alike. We know you all join us in wishing Theresa well as she begins a new chapter in retirement.

Ground Breaking Ceremony

The construction of Wilton Bank is underway

After the recent removal of the former buildings and storage units at 618 W. Fifth Street in Wilton, staff and community leaders held a ground breaking ceremony at the future site of the Wilton Bank office.

According to Greg Gannon, President of DeWitt Bank & Trust Co., the 9,270-square foot banking facility will enable the Wilton Bank office to grow, while also providing additional services to customers. The new facility, which is targeted for completion in spring of 2019, will provide deposit services, residential, business and agriculture lending, wealth management and tax and accounting services, safe deposit boxes, as well as a drive-up teller and ATM services.

Single Source Architects and Master Builders of Waterloo is serving as the general contractor for the project. Follow along with the construction progress on the DeWitt Bank & Trust Co. Facebook page.

Pictured at the site from left include: Wilton Mayor Bob Barrett, Wilton Development Corporation Director Becky Allgood, city council member Keith Stanley, DeWitt Bank & Trust Co. President Greg Gannon, Wilton Chamber of Commerce Executive Vice President Eva Belitz, and Wilton Bank staff Julie Ford, Bill Vetter, Melissa Becker, Grant Lilienthal, Laura Kauffman, Kelly McKim and Ben Brown.

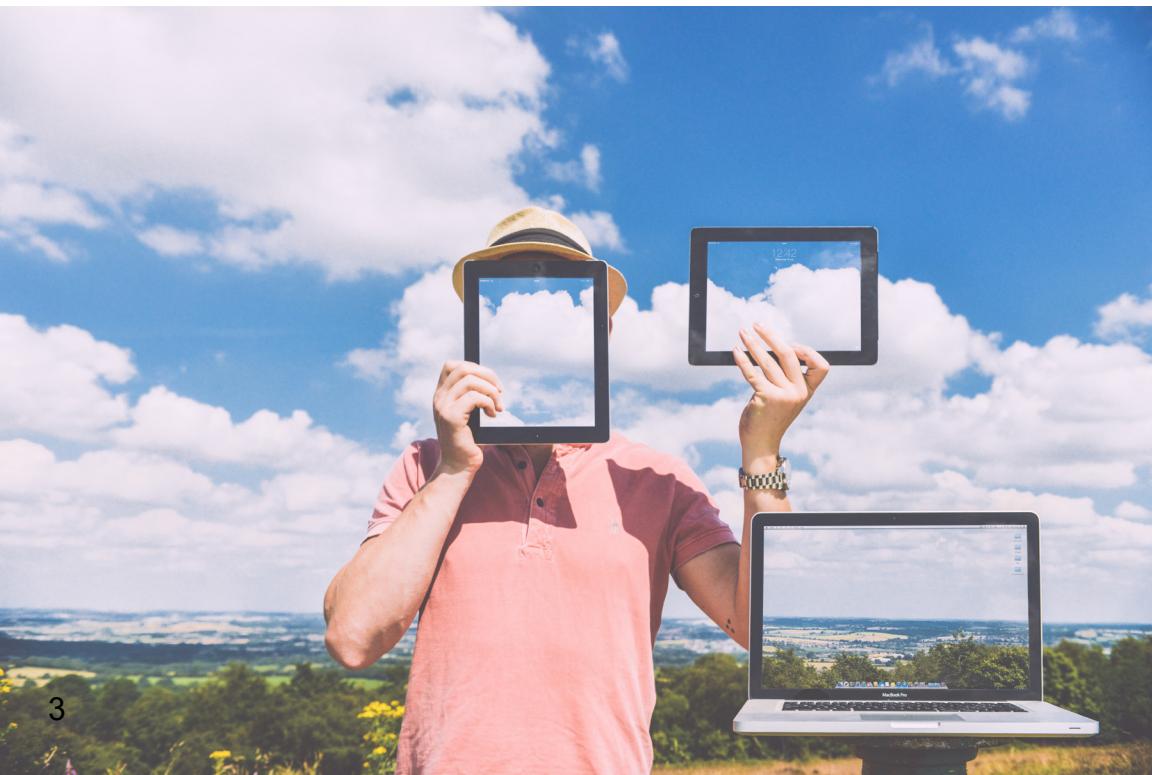

The Wilton Bank Office

is scheduled to be completed in spring of 2019

Reduce the Risk of Identity Theft

Take precautions to protect your identity

1. Know who you're dealing with. Whenever anyone contacts you asking for private identity or financial information, make no response other than to determine who they are, the company they represent, and the reason for the call.
2. Do not carry your Social Security card in your wallet or purse, or keep the number saved in your phone.
3. Take caution when opening emails. Never click on hyperlinks, but rather type the actual website address.
4. Destroy private records, credit card statements, solicitations, and other documents with personal information. Watch publications in the spring for information on our annual free shred day.
5. Remove your name from marketers' hit lists. In addition to the national Do-Not-Call registry (1-888-382-1222), you can also cut down on junk mail and opt out of credit card solicitations.
6. Be aware of the latest ID theft scams. Regularly check this website to stay up-to-date: <https://www.consumer.ftc.gov/features/scam-alerts>
7. Be cautious on how you use social media. Oversharing can enable people to piece together personal information, which can then lead to compromising your identity.
8. Monitor your credit report. You can get a free credit report annually at: <https://www.annualcreditreport.com/index.action>
9. Consider identity theft protection services. While no service can protect you from having your information stolen, there are companies that offer monitoring and recovery services.
10. Use our Mobile Banking and Shazam Bolt\$ applications to stay up-to-date on your account, monitor your debit card activity, and turn on/off your debit card along with additional other features.

10 WAYS TO Protect YOUR MOBILE DEVICE

DeWitt Bank & Trust Co. offers you the convenience of banking anytime and anywhere with our Online and Mobile Banking applications.

Your mobile device provides convenient access to your email, bank, and social media accounts. Unfortunately, it can potentially provide the same convenient access for criminals. We recommend following these tips to keep your information - and your money- safe.

1. Use the passcode lock on your smartphone and other devices. Activating this feature will make it more difficult for thieves to access your information if your device is lost or stolen.

2. Log out completely when you finish a mobile banking session.

3. Protect your phone from viruses and malicious software, or malware, just like you do for your computer by installing mobile security software.

4. Use caution when downloading apps. Apps can contain malicious software, worms, and viruses. Beware of apps that ask for unnecessary “permissions.”

5. Regularly download the updates for your phone and mobile apps. These keep your phone running at its best.

6. Avoid storing sensitive information like passwords or a social security number on your mobile device.

7. Be aware of shoulder surfers. The most basic form of information theft is observation. Be aware of your surroundings, especially when you're punching in sensitive information.

8. Beware of mobile phishing. Avoid opening links and attachments in emails and texts, especially from senders you don't know. Be wary of ads (not from your security provider) claiming that your device is infected.

9. Be cautious of public Wi-Fi. Refrain from performing banking transactions on a public network. If you need to access your account, try disabling the Wi-Fi feature and switching to your mobile network.

10. Report any suspected fraud to us immediately. Additionally, so we can better serve you, let us know if you change your phone number or lose your phone.
